## 99456 Hardwood shield for in & out 0,5L

This collection is made from acacia wood in combination with MDF. Acacia is quite sustainable. Especially the fine grain, the shades and the range of coloring give an appeal of warmth to this furniture.

Solid wood has the advantage of having character in the wood. There are different shades, little twists, small cracks, in short, there are no wooden boards that are exactly the same. Especially the knots are a typical characteristic of acacia wood.

This makes solid wood so unique, gives it charm and nice appeal. Differences in color between the exposition model and the bought model are therefore inevitable. The color of the Charlotte collection is 'white' and offers a small layer of protection against stains and hand or fingerprints.

There is a possibility to use extra protection on the furniture, "hardwood shield" from our castle care range. This is a product to avoid stains getting on the table, not a cleaner. Nevertheless should stains always be removed immediately with a dry cloth.
