CASTLE INTERIORS

“Soren”

This collection is made of oak, an extremely durable, hard and strong wood. It enjoys a solid reputation as regards quality and has been a favourite wood of hard wood furniture makers for many years.

As standard, the Soren collection is made of solid oak featuring lightgrey lacquered MDF doors and drawers. The MDF doors and drawers can however be finished with a lacquer of the k5 gammut semi-mat RAL catalogue. All you have to do is supply the corresponding RAL color code when you order. Within this collection, it is also possible to opt for furniture made entirely from solid oak – in this case the lightgrey lacquered MDF doors and drawers are replaced by solid oak doors and drawers.

All pieces of furniture in this collection are made semi-mechanically. This means that their components are to a large extent made mechanically, but that they are finished by skilled furniture makers according to traditional methods.

- Each piece of furniture is sanded by hand.
- Each piece of furniture is scraped or brushed by hand (giving it depth, character and soul).
- Each piece of furniture is aged and antiqued by hand.

Solid oak wood has the immense advantage of adding character to furniture. It has little knots, small cracks and slight color differences. In short, no two boards are identical. This makes solid wood furniture truly unique, gives it its elegant charm and adds visual interest. You will find that the tops and sides of the furniture (except for the tables) are made out of wild finished oak. There you can clearly see the cracks and knots. The inner parts are manufactured out of smoother finished oak wood. This way of finishing the furniture was especially chosen to give the collection more character.

The Soren collections oak color is called ‘grey wash’, which already provides protection against stains, hand or fingerprints. Extra protection can be provided by using Castle Interiors ‘HARDWOODSHIELD’. This product is not a stain remover, but protects wood furniture against stains. However, even if your furniture is protected with ‘the hardwoodshield’, you should never allow a stain to set in. Always remove it immediately with a dry cloth.
