as solid as
it gets

CASTLE INTERIORS

“Tibo”

The Tibo collection is made of solid oak wood sourced from thoughtfully managed European forests. This oak is extremely durable, hard and strong. It enjoys a solid reputation as regards quality and has been a favourite wood of hard wood furniture makers for many years. The Tibo collection is more specifically made of wild oak, a wood containing knots and small cracks. The Tibo collection is made of 100% solid oak, but certain pieces containing components that are susceptible to cracking and warping are made of 90% solid oak and 10% 0.7 to 0.9 mm thick oak veneer. All pieces of furniture in this collection are made mechanically. The drawer slides have a maximum load capacity of 30 kg.

The doors and drawers are equipped with soft close hinges, which ensure their soft and quiet closing.

The hinges can be adjusted in all directions for precise positioning of the doors.

SOLID WOOD CHARACTERISTICS

Solid wood has the immense advantage of adding character to furniture. It has little knots, small cracks and slight color differences. In short, no two boards are identical. This makes solid wood furniture truly unique, gives it its elegant charm and adds visual interest.

The colors of the Tibo collection are finished with a special satin UV resistant varnish with decent protective qualities.

We exclusively use water-based products.

Extra protection can be provided by using Castle Interiors' hardwoodshield'. This product is not a stain remover, but protects wood furniture against stains. However, even if your furniture is protected with the hardwoodshield, you should never allow a stain to set in. Always remove it immediately with a dry cloth.
