Looking for that extra touch?

Castle Line is a proud global player, at home in every market. But did you know that our story started with simple woven baskets back in 1976? Our founders' aptitude for trends and distinctive design transformed Castle Line into the leading Belgian furniture specialist you know today.

Castle Line at its core has remained the same throughout the years. Just like when we first began, we want to create added value by offering furniture with that extra touch. Perfect for those looking for creativity and quality.

Inspiring people with original collections is why we do this.

Meet the designer

Cas Moor

Cas Moor knew he wanted to become an inventor from an early age. His curiosity about the way products come together led him to the field of design. His unique perspective on practical design is fuelled by his knowledge of materials and production.

With his strong education and distinctive design philosophy, Cas has established himself as an independent designer. He collaborates with companies globally and brings a personal touch as well as intersectoral expertise to each project.

His design process is based on the firm belief that it is not just about creating a product. It's about the materials, the making of and understanding the end users. The details make all the difference. For Cas, the material and craftsmanship serve the form and tell a story in doing so. This results in products that are truly meaningful.

“The true measure of a design’s success is its ability to remain impactful even when distilled to its purest form.”

Siro

Designed by Cas Moor

The Siro chair is the standalone piece of this collection. The intention was to create a chair that exudes top quality. Its design is completely customisable to perfectly match your taste and enhance your interior.

The Siro chair's design offers a balance between soft elegant lines and ultimate comfort. The sturdy oak legs flow naturally into the chairback, bringing a surprising touch to an otherwise seemingly traditional design.

The result is a modern look that adds a touch of warmth without compromising on practicality.

Nova

Designed by Cas Moor

The Nova collection is timeless and beautiful in its simplicity. The attention to detail is what makes this collection truly stand out.

The Nova collection was designed with the intention to be timeless and its unique detailing invites a closer look. The slightly routed shadow groove on each corner leg is sure to catch your eye, while the chamfered edge of the tabletop adds a subtle touch for a lighter appearance.

As a result, a Nova table will accentuate almost any interior for years on end.
